

Postdoc position in Harmonic Analysis and PDEs

A postdoctoral position is available to work on the project "*Nonlinear Dispersive Partial Differential Equations*" led by Alejandro J. Castro Castilla, at the Department of Mathematics, Nazarbayev University.

Applicants should have a strong record of original scientific research and should have a PhD degree in Mathematics by the end of 2019, ideally with a solid background in Harmonic Analysis and Partial Differential Equations.

The contract is for one year with the possibility of extension up to two years. The starting date is January 2020, with a gross salary of 2000 USD per month.

Please send your CV, research statement and motivation letter to the PI at alejandro.castilla@nu.edu.kz before October 31, 2019.
